**BRAND LOYALTY SHOULDN'T
COST YOU YIELD.**

**NO OTHER CORN HEAD WORKS LIKE A DRAGO,
OR PAYS YOU BACK LIKE ONE.**

Of all the reasons for choosing a corn head, color shouldn't be one of them. No other corn head is engineered with more yield-saving technologies than a Drago. From automatic self-adjusting deck plates that reduce kernel loss to the industry's longest knife rollers that reduce trash, every component is designed to deliver more yield.
